TR1

Toronto IBX® Data Center

Equinix Toronto Data Center

Our Toronto data centers are business hubs for 470+ companies, and customers can choose from a broad range of network services from 60+ NSPs. Equinix customers have direct access to Toronto Internet Exchange (TorIX) and can directly connect to customers and partners in their digital supply chain.

The Equinix Toronto metro consists of six IBX data centers: TR1, TR2, TR4, TR5, TR6, and TR7. These facilities feature a dense concentration of financial services, financial exchanges, and enterprises that enable customers to be a part of one of Canada's most robust trading ecosystems, including alternative trading systems, market data feeds, risk management service providers, traders, and banks.

Toronto Data Center Benefits

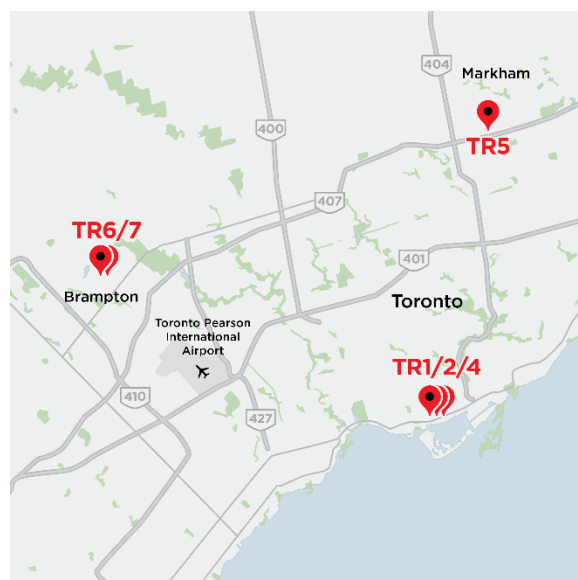

- Direct access to TorIX (at TR1 and TR2) and 60+ NSPs, offering density and diversity for network deployment reach, speed, and scale
- Strong network and interconnection base decreases latency while improving performance and reliability of content delivery
- Strategically located close to the US for business continuity and disaster recovery operation
- Access a robust financial ecosystem with connections to Nasdaq Canada global financial exchange and TorIX
- Linked by Equinix Metro Connect®, providing customers with fast, convenient, and affordable integration to other customers, partners, and service providers at other Toronto IBX data centers
- On-site, 24/7 support for remote management, installation, and troubleshooting via Equinix Smart Hands®
- Easy-to-manage, scalable, and quick-to-provision internet access through Equinix Internet Access.

Building

SPACE

Colocation Space	36,078 sq. ft. (3,352 sq. m.)
Building Type	8-story, concrete, steel framework, concrete face structure
Parking	Building parking (for fee)
Floor Type	Raised floor
Floor Load Capacity	70 psf (3.35 kN/m ²)

FLOOD ZONE

Flood Plan Info	Zone D
-----------------	--------

SEISMIC RATING

Seismic Design Category	X
-------------------------	---

FIRE PROTECTION

Fire Suppression	Double-interlock pre-action sprinkler system (dry pipe)
Fire Detection	VESDA Smoke Detection

Facilities

POWER AND COOLING

Cabinet Density	2.4 - 5.0 kVA per cabinet
Utility Feeders	2
UPS Configuration	Parallel redundant
UPS Redundancy	N+1
Standby Power Configuration	2 x 250 kW, 2 x 1,000 kW and 2 x 2,000 kW diesel generators
Standby Power Redundancy	N+1
Cooling Configuration	Chilled water, DX systems and glycol systems
Cooling Redundancy	N or N+1 (depending on suite)

SECURITY

Physical	Man trap entry
Human	Remotely managed via the Equinix Operations Center
Electronic	PIN and card readers, CCTV, surveillance with 90-day retention, motion detection

Amenities

- Break Room
- Loaner tools
- Work Kiosks
- Conference Room(s)
- Crash Carts
- Wifi
- Showers

Products and Services

Data Center

- Private Cages
- Secure Cabinet
- Equinix Flex Space
- Antenna
- Smart Hands®
- Equinix Smart Build
- Equinix Managed Solutions

Interconnection

- Equinix Fabric®
 - Fabric Cloud Router
- Equinix Precision Time®
- Equinix Internet Exchange®
- Equinix Internet Access
- Cross Connects
- Metro Connect®
- Fiber Connect

Digital Infrastructure

- Network Edge
